

# Childcare Checklist

Ensure they are licensed.

Look up any violations they have had via the resource chart.

Do a tour and look around at everything carefully.

Ensure they allow drop bys (with Covid may not be allowed).

**Ask open ended questions such as the examples below:**

Can you tell us about your illness and vaccine policies?

What is the ratio of adults to children you maintain?

Where and how will my child be sleeping? Describe your sleep regulations.

What safety certifications do all the employees hold? Have they ever had to employ them? If so, what occurred?

\*\* If not allowing parents to drop by due to public health ask what other ways they allow you to check on your child during the day.\*\*
